

## Kensing Global Palm Oil Mill List 2023

Kensing is sourcing palm products and palm based oleochemical derivatives from various suppliers for the use in homecare, personal care, pharma and other applications. These palm products are mixed, derived, traded, and comingled along the global supply chain, thus traceability is challenging. The following palm oil mill list is based on information that has been self-reported to us by suppliers. Though we have made considerable effort to validate the data, we cannot guarantee its full accuracy or completeness. The lists of mills provided to us from our suppliers represents mills that are "potentially" linked to our supply chains, however does not necessarily mean each mill is connected to specific volumes Kensing is sourcing.
