

Kensing Global Palm Oil Mill List July 2026

Kensing is sourcing palm products and palm based oleochemical derivatives from various suppliers for use in homecare, personal care, pharma and other applications. These palm products are mixed, derived, traded, and commingled along the global supply chain, making traceability challenging. The following palm oil mill list is based on information provided through the Action for Sustainable Derivatives (ASD) supply-chain mapping process and supplier-reported data. Although we have made considerable efforts to validate the data, we cannot guarantee its full accuracy or completeness. The mills listed represent mills that are potentially linked to our supply chains; this does not necessarily mean that every mill is connected to specific volumes sourced by Kensing.
